Task mode: Test conditions

French 2021-S1, The Changing World

10 March 2021 (Week 6)

English version

Criteria

Achievement standards targeted for the BSSS Modern Languages courses from 2020 come under the following two fields: understanding and communicating.

*For the listening assessment task, the first of these domains is our focus. This assessment task focuses on **understanding and analysis**, which will be equally weighted in the marking scheme. It is about demonstrating your understanding of what you hear; and providing your commentary coherently. Marking will not be based on grammar or spelling, provided the expression is understandable for a native speaker of the target language. However, you will receive some advice about your written expression that may be useful to you for the writing tests.*

The structure of the test

For the audio/video clips in the assessment task, there will be a selection of subjects taken from those listed below. You will need to respond to questions about several audio/video documents. No notes will be allowed. However, if there are expressions outside of those you might reasonably be expected to know, these will be explained in the test paper.

Preparation

You should review the resources used during the lessons over the first five weeks of the semester. For each week, in the weekly modules, you have a summary of the information and activities that form part of the program. See <https://languages.org.au/> and Google Classroom.

Theme

*The theme for the program for this semester is **The Changing World**. You will reply to questions about documents that treat the subjects coming from the program for the first weeks of the semester.*

- Renewable energy
- Genetique engineering
